FOREWORD

WE have tried to make this Dial worthy of our class and school. To those who have helped us, we extend our gratitude. No opinion do we offer about our book — read it through and draw your own conclusions.

We will take favorable and unfavorable criticisms and say “thank you” for both. Truly we wish that our friends may have as much pleasure in reading our Dial as we had in writing it.

To

Cassius S. Lyman,

Supervisor of Practice Teaching, Teacher of Arithmetic:

Because of his unlimited sacrifice for the
promotion of great enterprises for
students of our school,
we dedicate the
Nineteen Twenty-three Dial.

THE GREATEST EDUCATIONAL SERVICE

THE greatest educational service to the human race consists in the teaching of reading. He who has learned to read is already well educated. He who has not learned to read, though he have passed the tests of the universities and received their highest degrees, has not even the elements of a liberal education.

It has come to be one of the best established facts of psychological and pedagogical knowledge that reading more powerfully affects and directs and controls human thinking than does any other human experience or influence. He who daily reads his Plato, his New Testament, his Matthew Arnold, his Emerson, his Cardinal Newman, his Marcus Aurelius, his John Ruskin, his Thomas Carlyle, his Isaiah, and comes to require daily an hour's thinking-together with such minds as these, as regularly as he requires his daily bread, will, in the course of years, become so illumined with the spirit of sweetness and light, so warmed with the intensity of thought-heat, so exalted with a divine spirituality, that he will find himself, at times, on the very mount of transfiguration, walking and talking with God and seeing Him face to face.

There is no such civilizer in the world as books. There is no such soul-saver in the world as books — beginning with the Book of Books. There is no such illuminator and inspirer of the human mind as books. Therefore the teacher and free public school — that all may be taught to read, and so have access to the best thought of the thinking world. The greatest educational service to the human race consists in the teaching of reading.

GONE BUT NOT FORGOTTEN

On the path of Life
We meet many travelers
Hurrying,
Crowding,
Hastening along.
Some help to mould the lives of others
By their helping hand
And cheerful song.

These friends have gone
But something remaineth
Stirring,
Thrilling,
Filling the soul.
They helped to mould the lives of others
By their clear vision
And high-aimed goal.

TWO CAREFREE DAYS

(Selected for The Dial by Dr. James Chalmers)

THERE are two days in the week upon which and about which I never worry. Two care-free days, kept sacredly free from fear and apprehension. One of these days is Yesterday. Yesterday, with all its cares and frets, with all its pains and aches, all its faults, its mistakes and blunders, has passed forever beyond the reach of my recall. I cannot undo an act I wrought, I cannot unsay a word I said on yesterday. All that it holds of my life, of wrong, regret and sorrow, is in the hands of the Mighty Love that can bring honey out of the rock, and sweet waters out of the bitterest desert — the love that can make the wrong things right, that can turn weeping into laughter, that can give beauty for ashes, the garment of praise for the spirit of heaviness, joy of the morning for the woe of the night.

Save for the beautiful memories, sweet and tender, which linger like the perfume of the rose in the heart of the day that is gone, I have nothing to do with yesterday. It was mine; it is God's.

And the other day I do not worry about is Tomorrow. Tomorrow with all its possible adversities, its burdens, its perils, its large promise and poor performance, its failures and mistakes, is as far beyond the reach of my mastery as its dead sister, Yesterday. It is a day of God's. Its sun will rise in roseate splendor, or behind a mask of weeping clouds — but it will rise. Until then, the same love and patience that hold Yesterday hold Tomorrow. Save for the star of hope which gleams forever on the brow of Tomorrow, shining with tender promises into the heart of Today, I have no possession in that unborn day of grace. All else is in the safe keeping of the Infinite Love that holds for me the treasures of Yesterday — the love that is higher than the stars, wider than the skies, deeper than the sea. Tomorrow is God's day, it will be mine.

There is left for myself, then, but one day of the week — Today. Any man can fight the battles of Today. Any woman can carry the burdens of just one day. Any man can resist the temptations of Today. O friends, it is only when, to the burdens and cares of Today, carefully measured out to us by the Infinite wisdom and might which gives with them the promise, "As thy day, so shall thy strength be," we wilfully add the burdens of those two awful eternities — Yesterday and Tomorrow — such burdens as only the mighty God can sustain — that we break down. It isn't the experience of Today that drives men mad. It is the remorse for something that happened Yesterday, the dread of what Tomorrow may disclose.

These are God's days. Leave them with Him. Therefore, I think, and I do, and I journey but one day at a time. That is the easy day. That is the man's day. Nay, rather, that is our day — God's and mine. And while faithfully and dutifully I run my course, and work my appointed task on that day of ours, God the Almighty and the all-loving takes care of Yesterday and Tomorrow.

DEGREE SENIORS

United States Ship Degree Senior! Who were to be her passengers and what were to be their duties seemed a weighty question to all. The identity of her passengers was soon discovered. At first the number booked was eight, and then a ninth one decided to join her crew.

Their work, though listed, was not fully organized and so they spent the first three days getting acquainted and drawing up the course which they were to travel through the coming year, via Economics, Sociology, English, etc.

As it is not customary to set sail on a cruise, however short it may prove to be, without a captain and his subordinates, they called the passengers together in the ship's cabin (Miss Nicholass' office) to elect these dignitaries who were Helen F. Lebbossiere, President; Eirene Wheeler, Vice-President; Dorothy M. Bemis, Secretary; and Mattie E. Betts, Treasurer.

Our ship, like all great ships, passed over rough waters and dark seas only to dock safely in the Harbor of Achievement.

THE DIAL

MARION LOUISE ADAMS

"Maisie"

ADAMS STREET, HOLLISTON, MASS.

October 27, 1904

Regular

*"None knew thee but to love thee,
None named thee but to praise."*

Quiet, sedate, congenial, and conscientious is Maisie. Although a commuter, her untiring efforts for the best results are displayed by her presence in class rooms early and late. Maisie's slogan is, "There are two things I never run after, a young man and a street car, for there's always another along in a minute." The one great weakness which Maisie has is a vast attraction for the "reel" life.

ISABELLE MAY ALDEN

"Issy"

PROCTOR, VERMONT

September 10, 1900

Household Arts

Lend-a-Hand, Y. W. C. A., Athletic Association, Summer School

"Always ready and willing to help."

We admit that Massachusetts has a pretty fine set of girls but here comes a girl from Vermont whom few can excel. Issy's chief aim is to be ready to go anywhere ahead of time, and even in sewing she is always previous in picking up her work and suddenly disappears before the bell rings. Taken all in all Issy's O. K. and one of our truest friends.

ADELIA JANE ALDERMAN

"Delia," "Bedelia"

MIDDLEFIELD, MASS.

July 26, 1902

Household Arts

Lend-a-Hand, Fine Arts, Y. W. C. A., Athletic Association.

"Willing and ready at all times."

The first impression one has of Adelia is of a small, quiet, demure little maiden. But change your first impression, for Delia is chuck full of funny songs and stories, and willingly entertains the corridor between 9:30 and 10. To all who know her, she is a very good and true friend. As for accomplishing things, if Delia starts a task she never leaves it until it is done.

HELEN WILSDON APPLETON

"Appie"

HINGHAM, MASS.

February 18, 1902

Household Arts

Y. W. C. A., Fine Arts, Lend-a-Hand, Glee Club (3), Athletic Association, Summer School.

Appie is one of the girls in our class who came here and took the Regular Course first. We H. A. girls are all glad she changed to our course for she is a good sport. We're sure life at F. N. S. would have been dull sometimes without one who likes to argue as she does. Her spare time is always spent reading books and magazines. Let us hear from Michigan and the West next year, Appie.

MARION VIRGINIA ARENOVSKI

"Ski"

PALMER AVENUE, FALMOUTH, MASS.

December 5, 1900

Household Arts

Y. W. C. A., Fine Arts, Lend-a-Hand, Athletic Association.

*"Friends have I made whom
Every must commend."*

From the days of Junior foolishness, through the period of Middle Junior hardships into the dignified Senior life, Marion has proven to be a true friend to all. We can say without exaggeration that Marion's ability to "see the thing through" has made her sought after by all committees. Though she will make new friends the friendships of 1923 will ever last.

HELEN GOULD AVERY

163 MIDDLE STREET, BRAINTREE, MASS.

October 24, 1901

Household Arts

Y. W. C. A., Fine Arts, Lend-a-Hand.

"When one is truly in love, one not only says it, but shows it."

Helen is a quiet, conscientious girl who always has her work done on time whether notebooks or dresses. As for being neat, you just ought to see her room as well as herself to know. We all know why Helen leaves F. N. S. when Friday comes. Never mind, she deserves all that happiness.

"That inexhaustible good nature, which is in itself the most precious gift of heaven."

What is that noise? Why, of course! that is Ginny's funny little squeal. Who doesn't know it? Although Ginny appears to be very quiet, she can be full of life at times. She has a special liking for dogs—"Oh! my precious Gippy!"—and she is "almost" as fond of children.

LOUISE ALICE BAKER

"Weezy"

29 SYCAMORE AVENUE, BROCKTON, MASS.

May 25, 1902

Household Arts

*"Always hustling everywhere,
Never any time to spare."*

Just a glance at the list above is proof positive that Louise has not had much opportunity to be idle. There is no one in the class who denies that her reputation has been broadcasted throughout the school. Although she went to Bridgewater the year before she came here, no one doubts that she will be anything but a staunch defender of Framingham.

KATHRYN MANNING BANNISTER

"Kay"

315 UNDERWOOD STREET, FALL RIVER, MASS.

July 31, 1903

Regular

Lend-a-Hand, Fine Arts, A' Kempis.

"What's mine is yours, and what is yours is mine."

Where could we find a more generous lender, one more gracious about sharing everything with others, than our Kay? Kay is an all-around girl and always loyal to her friends. We'll remember her as a jolly good pal and a true blue friend. Those of us who lived on "Night Hawk Alley" will remember her for other reasons as well. We hope she will never change—except in name!

EFFIE ELIZABETH BARNARD

"Ef"

21 UNION STREET, NATICK, MASS.

"Still waters run deep."

Effie is one of the commuters from Natick. Although she spends much time studying hygiene, she manages to find time to play cribbage!!! As a practice teacher, she really did make a fine record. However, we must watch out for Effie, because she seems to be following a "Hayward" way. If this route does not prove too fascinating we are sure will she make a fine teacher.

HELEN OCTAVIA BARR

NEW BRAINTREE, MASS.

January 29, 1904

Regular

Y. W. C. A., Fine Arts, Athletic Association.

*"Honor to those whose words or deeds
Thus help us in our daily needs."*

Helen came to F. N. S. from New Braintree. What is one's loss is another's gain. We put Helen on the credit side. When anyone wants help in history she feels sure of getting it if Helen is anywhere to be found.

ELVA HARLOWE BATCHELDER

AMESBURY, MASS.

September 6, 1903

Regular

Fine Arts, Y. W. C. A., Athletic Association.

"I say little; but when time shall serve, there shall I smile."

Elva is one of our small girls. She always has a smile for everyone but—that isn't all; under that bobbed head is a good little brain in good working order—she uses it, too. In work and in play Elva has a sunny nature.

THE DIAL

SARAH SPOONER BENT

"Sayre"

14 HALL STREET, PLYMOUTH, MASS.

March 8, 1900

Regular

Y. W. C. A., Lend-a-Hand, Fine Arts.

"We cannot buy with gold, her friendship."

"Sayre" and Happiness are very congenial companions. Kind of a girl?—Just the type of friend we all admire—good natured, a good sport and ever willing to help others. Her inexhaustible amount of humor and originality have assisted us many times, and her cheerful disposition and lovable character will certainly keep the sun shining in her school room.

PEARL FRANCES BIGELOW

CHURCH STREET, NORTHBORO, MASS.

May 21, 1904

Regular

Commuter's Club, Athletic Association.

"For the beauty of a loving woman is enchanting."

Pearl? Pearl Bigelow? Sure, everyone knows Pearl. She is one of Sr. C's popular debutantes. You wonder where she made her debut. Why, at the Junior Prom. We are sure that the Sr. Prom will be merely a repetition for Pearl. But her popularity does not prevent her from being a good student also.

LILY RUTH BILTON

"Lil"

PROSPECT STREET, EAST LONGMEADOW, MASS.

January 29, 1902.

Regular

Y. W. C. A., Fine Arts.

*"There are loyal hearts,
There are spirits brave,
There are souls that are pure and true,
Then give to the world the best that you have,
And the best will come back to you."*

Lily is one of our quiet, conscientious girls. Whoever knew her to go to classes with her lessons unprepared? What would the girls on second floor, east wing do without her? No matter what it is, she is always ready to lend a helping hand.

*"Oh, call it by some better name,
For friendship sounds too cold."*

"Bert! Bert!" Those who live up on second floor Pierce often hear that, very early in the morning. Yes, it does disturb slumberers sometimes. However, Bert doesn't cause us any other trouble ever, but lives a busy, happy life. She led us through the stormy sea of our Junior year successfully. We know that Bert will be a first-rate primary teacher because of her fondness for little children and her musical ability.

Tena came to us from Newfoundland and brought with her many Newfoundland ways. Her love for animals can scarcely be surpassed as she even keeps ducks floating in her bulb dish. Tena is faithful to her studies, yet never misses a chance for a good time. She is capable and independent and always accomplishes what she starts to do—even to working her way through F. N. S.

Yes, here we have "Lillian," the pride of "Cider Cide." We all admit that our corridor and our school in fact, would have been much duller without her. For she is one who is faithful to her work and yet is always ready for a good time. "Marj" must have been a successful teacher for she has very high ideals about teaching and life, too. We wonder if she found her "ideal" in those eight weeks at home or if she were just looking around.

One of the quietest, as well as one of the brightest girls in our class is Betty. She is never idle a moment but always thrifty and thoughtful of others. We feel sure that she will succeed in her chosen profession and that only happiness and prosperity are before her.

Shall we ever forget the chickens which Louisa brought back to us? Six short weeks practice teaching in Worcester proved Louise to be a born teacher. Don't be surprised some day, if you receive a letter post-marked China. Louise's greatest desire is to be a missionary there.

Margaret, she just lays low and doesn't say much, but her actions speak for her. She is a girl afflicted with that bothersome article known as a conscience. When the week-end arrives with thoughts of home and mother and long Monday assignments, Margaret merely whispers to the tempter, "Get thee behind me!" and remains in Framingham. Ain't life mean? But cheer up, Mag, the first hundred years is the worst. You're bound to make a successful teacher.

Madeline enjoys the most sunny of dispositions, or rather, we enjoy her happy disposition. Will the echoes rocketing upward from that favorite roost of commuters ever bear a merrier sound to the startled Mr. Workman's ears? Never! But the bright laugh masks a bright mind, don't forget, which is only a bit nimbler than ours to see the happier side of life.

Well, who could do anything else but admire Marion? And the more you see of her, the better you like her. She will always do anything she can to help you, and how neat she is in doing it! She may appear to be quiet and shy at times, but when you know her, she really isn't a bit.

Another of our sedate schoolmarm? Although she bears a dignified face in the schoolroom (which of course befits one entering our profession) it is a very fun-loving disposition we meet outside. Her twinkling eyes often deceive the composed face she would like to wear. We could never imagine Marjory angry for she believes in the saying, "Smile, and the world smiles with you; weep, and you weep alone." However, we have noticed that she often laughs till she cries. Watch out, Marge, for there's an old rhyme, "Laugh till you cry; sorrow till you die."

Regular Class Prophet

*"When she works, she works,
When she plays, she plays."*

Everyone who knows Janice knows that she never neglects her work. If she has a piece of work to do she does not feel at ease until it is done. This does not mean that Janice never plays, however, because she plays at the proper time. We know that Janice cannot help being successful.

26 CLIFTON STREET, WORCESTER, MASS.

August 8, 1901

Household Arts

Y. W. C. A., Fine Arts, Lend-a-Hand, Glee Club (2) (3), Summer School.

"O true in word, and tried in deed."

Alice is a friend to everyone. Who has ever looked to her for assistance of any kind and found her wanting?—and how many of us have found her holding out a helping hand when we most needed it! She cheers us as well, and loses sight of her own troubles, in trying to make others' easier to bear. Here's to Alice, a faithful worker, conscientious student, sincere friend, and last but not least, jolly pal.

HARRIETTE HUNTING

"Harry"

3 HARRISON STREET, COCHITUATE, MASS.

Vocational Household Arts

Y. W. C. A., Fine Arts, Lend-a-Hand, Summer School, Vocational House President.

*A keen mind of an executive bent
Conscientious, reliant and independent;
A twinkling eye of kindly blue,
This is a girl whose metal rings true.*

Nothing can ruffle Harriette. She is always calm, dignified; perhaps sometimes a little righteous indignation makes its appearance. She possesses a bottomless fund of sympathy, sincerity and charity, and so is an excellent example of one's ideal of a friend. She performs all her tasks quietly, steadily, earnestly, with no wild appeals for aid or sympathy.

"Fran"

A'Kempis, Maqua Delegate (1).

"To know her is to love her."

Fran is one of the quiet members of our class. But who doesn't know her! Just the lovely expression of those eyes, and the timid smile can win, for her, admiration wherever she may go. The little Fran does say betrays her strong mind, her wonderful character, and her loyalty to all. With these characteristics together with a love for small children, who can doubt Fran's success as a teacher of youth?

"Smile a little, smile a little,

As you go along,

Not alone when life is pleasant

But when things go wrong."

This might be Catherine's motto for it surely applies. All ways happy, smiling and full of the kind of cheer that radiates—she is a real friend with all the virtues of a friend—thoughtful and always ready to help in varied ways. And as to teaching—just watch her closely when you ask about her "teaching experience" in Fall River and immediately you can predict tremendous success in her future.

"Ann," "KelleyKid"

A'Kempis, Fine Arts, Athletic Association.

"Laugh and the world laughs with you; weep and you weep alone."

This is surely Ann's motto and she carries it out well too. She might be called the girl with the "perpetual smile"; for is not Ann always ready to see the humorous side of anything even if the rest of us fail to see it? A good time going on, and she is always there. If she were not one would surely know someone was missing. However, Ann is one of the best in Senior "C" in her lessons. Never mind Ann, we just know wherever you go you will succeed and make many friends with your smile and happy disposition.

"It is well to possess a quiet, invariable nature."

Yes, Martha is quiet, but in spite of this fact I think she needs no introduction—this year, at least. Last year, every Friday Martha made a bee line home on the "6:15 Tunaville Trolley." No, we'll take that back, she did stay here two week-ends. But this year, Martha is with us most of the time and so we all know her and are not sorry for it.

Who doesn't know and hasn't enjoyed Kentie's gift of telling funny stories which she illustrates so aptly with accompanying gestures! Hazel is one of our cheerful, conscientious students, who works well herself and is always ready to help her neighbor; always well-dressed and ready for a good time when work is done and certain lengthy epistles have been duly penned.

Who is that tall individual we see frantically distributing mail before Chapel, mornings? Who could it be but "Snappy." We'll have to hand it to her, she has the "reach" and the "go." Did anyone say argument?—not unless Marion was around to help them out! Marion is a faithful friend, a conscientious worker, and a loyal member of the class of '23.

Did you ever hear that laugh of Jean's? If so you know there is a good time coming because Jean is always full of pep although she never goes to class without her lessons being prepared. She is fond of athletics and is always ready for a game of tennis or of basketball. We wish you the best of luck, Jean!

"Imps" by name and imps by nature. Ruth is inclined to hold herself in reserve but when she lets go she certainly is right there with "pep." Not that she never smiles, quite the opposite, she seldom frowns. Can she sew? Well I guess. Whatever she attempts to make is attractive and well done too.

*"A daughter of the gods, divinely tall,
And most divinely fair."*

Yes, this is Flopsy. Tall and slender she moves serenely on her way with calm, unruffled brow. No wonder she is so much at peace with the world since she has decided to forget about her romance which research work in Textiles led to. Hard work at Framingham for three years has helped Flopsy to overcome her homesickness. By a glance at Flopsy one would know her to be a good sport and true friend. As a confidant she cannot be surpassed. Flopsy will sure make a successful teacher with her rare sense of humor.

Hear that merry laugh down the corridor? That's Ray who hails from Worcester. For three years this happy-go-lucky girl has been with us, proved herself to be a good sport, a true friend, and one of whom we may say "to know her is to love her." Ray is versed in many lines. She has proved herself a financier as Business Manager of our play and as candy salesman. But her pecialty is "gym."

Lib came up from Dan-berry in 1920 to try her luck at cooking and sewing, incidentally to learn how to pronounce Danbury and a few other words. She is one of our most sincere and most loyal girls and stands by her motto, "I'll try anything once."

Yes, and more—for who can forget "Unic's" unique poems, written for many occasions. As well as being a good, faithful student, Eunice has given untiring support to many student activities. To her, as chairman of the Meetings committee, we owe our helpful and inspiring Y. W. C. A. meetings. Many think her quiet, but those who know "Miss Methuen" well, know she is full of life and fun.

"Fate can nothing better send than a true and loyal friend."

"Barb" spent her first year at F. N. S. as a commuter, and we don't believe she ever got over the spirit of commuting as she is very seldom with us over week-ends. We wonder what she'll do when teaching in Western Massachusetts. She has always been one of the leaders of our class, and is always ready to help her less fortunate classmates.

Efficiency + good nature \times wit = Bessie. Of course we all know Bessie. Whenever anyone wants any information we hear "Oh where's Bessie!" for she is always willing to help anyone out when in need. Her hobbies are nature-study, basketball, and entertaining the girls by solving complicated jokes. None of us would mind having her talent in drawing class. We all know Bessie will be a success—in fact we all expect to see her on the faculty some day. Good things come in small packages.

Marion hails from Westboro. and a splendid representative she has been. Although quiet and unassuming, Marion has proven to be a helpful friend to all her classmates. Besides being capable in her studies, Marion is an accomplished pianist (classical music being her specialty). We shall not be surprised if Marion leaves our ranks to study at the Conservatory of Music. However, as a teacher or a musician we are sure that Marion will be a success.

"Geography is a science."

Can you read a map? Every Regular Senior should be able to do so. Read this one. All together! To the north is a vast highland plateau, containing many valuable minerals which have yet to be discovered. From the top of the highest peak you can look into an echoing cave from which is liable to issue at regular intervals much sound wisdom. Contrary to all human expectations, the features on this map will never change.

"Spuddie" is a good-natured, jolly, fun-loving girl, always ready for a good time. Lately she has been going home every week-end, but of course we know that is because of her practice teaching. "Spuddie" plans to return to F. N. S. next year and then be a dietitian. Whatever she does, we know she will be successful.

"Earth's noblest thing — a woman perfected."

Miss McKeon is one of our "Specials," and to be a bit slangy she is "pretty special." There are not many who would or could carry the work Miss McKeon has carried for the last two years, that is attending Normal School in the morning and teaching her seventh grade at the Lyman School for Boys in Westboro in the afternoon. She has not been able to take much part in the school life at F. N. S., but a few of us, more fortunate than the rest, have come to know her as a true friend in whom there is much help.

Don't worry, Marion, it's all over but the cheering. Remember the "back-stair" socials we used to have and the "solemn" vows we "shifters" took up in the students' room? In memory of our good old times here's wishing you the best of luck in the profession.

If you want a marcel, a shoe-shine or help in preparing dinner for a Prom, Anna is right there and she certainly lives up to her motto. Right now she is probably doing a good deed for someone. Your cheery disposition is worth a lot, Anna, keep it to brighten others as you have ours at F. N. S.

*"A friend in need
Is a friend indeed."*

Now allow us the pleasure of introducing "Dot," one of the prettiest and most ambitious girls in the class of '23. Dot never thinks of going home early—not even on Fridays—my, how she studies! As a "friend in need" how quickly and in what a becoming way she comes to the rescue of those who unconsciously lose the pitch in music early Monday mornings. No, indeed, we won't be surprised to hear of Dot making extensive tours through the country singing grand opera since she has such a wonderful soprano voice. Her great aim in life is to teach singing and dancing in the schoolroom.

ETHEL MARY MEHIGAN

A'Kempis, Commuter's Club.

"She does no work by halves."

Nor does she make friends by halves either. Ethel is a quiet girl but she does like something exciting once in a while. Shall we ever forget the time she saw a mouse, or rather what it had *not* eaten, in her bag in the locker room? I guess not. Ethel is studious, too, and is always ready to help someone else at the last minute.

Those who have ever seen "Jill" know, from just looking at her eyes, that there is nothing slow about her. She is a mighty good basketball player as all the Yale girls will testify, but that is not the end of her accomplishments. Where she obtains all of her information, we are not sure, but she always has something to say no matter what the topic of conversation may be.

*"Her eyes are like the heavens blue,

That's Irene, all right. It's a shame that the poet didn't mention rosy cheeks, for then there could be no doubt but that it was Irene about whom he was writing. "Mullen" is one of the quietest but one of the jolliest girls in our class. She has a keen sense of humor and keeps us all goodnatured. We'll remember her long after we've gone out from dear old F. N. S.

EVELYN THEODORA NORDSTROM

No class has ever been "boreome" to Nordy, that is if she could locate a pencil. Opening her notebook she would sketch therein a life-like portrait of Rudolph Vaseline, or perhaps the teacher who was delivering a lecture. Yes, Ev was practicing something that was to help her become the Art Editor of our DIAL. Art is like second nature to one of our dearest, peppiest classmates.

THE DIAL

"Oh, Mama!" Why, who's that? It's Helen, of course. Do we all know her? Well, I guess we do. Although she is quiet in all outward appearances, everyone knows she is always ready for fun. "Blushes" aren't becoming! Helen surely is the exception to this rule. We all know they will attract the children the way they have us and make them love her too.

Whether it is a stunt for the Pop Concert or a senior Prom you may depend on Helen to manage it successfully. Helen has always excelled in sewing. She always has time to do one thing more and do it well for Helen does not believe in doing things by halves. Helen has the choice gift of making many friends and keeping them. She is a true friend who may be depended upon.

"Efficiency wins the esteem of all true men."

Maizie is truly efficient for she not only has time to get A's in her subjects, play basketball and tennis, assume the responsibilities of President of A'Kempis, but she also has time for fun. Who in Crocker can forget Friday nights and week-ends when she has chased our cares away? After observing her teach her practice class not one of us can doubt that she will meet with nothing but success in the future.

Athletics, hats, clothes, "sandwiches" of all kinds, are your specialties and we believe you are not averse to the thrill of a masculine atmosphere.

Our Mary made a prominent appearance as leading lady in "Happiness" and played her part well as she does in everything. Many a night's fun has been provided by her jokes, and songs; but under it all we saw as good a student as may be found. Her hard playing soon won her a place on the basketball team, thus "capping" her as a happy all-around girl.

*"The man that has no music in himself

Where's that music coming from?! Oh, it's Ada playing her violin up on the top stair. We sometimes wonder why she chose the teaching profession but just the same we know she'll succeed whatever she does because Ada is *right there*, a good all-round girl. Much fruit of sense beneath is often found."*

And so it is with Helena who is a very keen observer. Being quiet and attentive to others, she is less of a talker herself; but when her opinion is requested, she is right to the point. Helena is jolly and friendly to all, and it is, perhaps, because of her unassuming ways that she has made herself so.

CHARLOTTE ABBOTT WOOD

"Charlie"

719 BROADWAY, FALL RIVER, MASS.

March 9, 1903

Regular

Fine Arts, Y. W. C. A.

*"Thou as Heaven art fair and young,
Thine eyes like twin stars shining."*

"Charlie" with her sunny smile has won a place in many hearts. Although studiously busy during study hour, after 9 o'clock she joins in all the pranks of No Man's Land. A good sport, a true and generous friend, always ready to aid in any difficulty—we know that her pupils will love her just as much as we do.

SENIORS

RUTH HELEN WORSNIP

HUDSON, MASS.

January 4, 1901

Regular

Y. W. C. A., Fine Arts, Athletic Association.

*"Say what you think,
Never mind what your neighbor thinks."*

Can't you just hear Ruth saying this? We have found her opinion helpful many times. If you don't know her, you may think her very reserved, but on further acquaintance you discover beneath this a keen sense of humor. Fresh air is good for you, Ruth, and a blanket of snow will keep you warm. However, we thought Peirce Hall was heated.

WINNIFRED CONSTANCE WRIGHT

"Winnie"

218 FRANKLIN STREET, HOLYOKE, MASS.

January 11, 1904

Regular

Y. W. C. A., Fine Arts.

"A hand that follows intellect can achieve."

Who is that rushing down through "No Man's Land?" Why, it's Winnie bubbling over with merriment as ever. It isn't an unusual sight to see Winnie standing with both arms raised high in the air and lowering them slowly in a deep salaam. Her hobby is reading and one can always find her perched in a comfortable position reading anything from Tennyson to a detective story. Perhaps it is due to this that Winnie is always in demand to write poetry for us, which she can do to perfection. When you go to Bridgewater next year, Winnie, take along our best wishes for success.

*"To gain a standard for the appreciation of other men's work
and the criticism of one's own; — to lose oneself in generous enthu-
siasms, and co-operate with others for common ends; — these are the
returns of a college for the best years of one's life."*

SUMMER SCHOOL

SUMMER SCHOOL 1922

"If you want to know how to can or to jell
Stop off at our Summer School just for a spell,
For there you will learn just what you want to know,
It's the very best place on earth for you to go."

IF you will just read over this little song, you will get an idea of what July, 1922, meant to 32 would-be Seniors. We worked all day long, for as you probably know, we had to pick the beans before we could can them. But it was enjoyable work, for the girls were agreeable and loyal.

Besides performing our various duties, writing songs was in order. Of course we sang while we worked anyway, but for a few days all were composing as well — and then the "Contest Night" arrived, with a chorus and real judges. The honors went to Louise Baker.

Before the closing of the three weeks of work Dr. Meier gave us a day off and took us to City Point. What a day, and what a lark! Some other things we won't forget are fire escapes, mosquitoes, breakfast-table expositions, pantries, dates and pineapple.

Miss Fuller and Dr. Meier — we appreciate all that you did to make our three weeks so happy and profitable.

"There's a place I'm thinking of when summer time draws near,
When trees are green and flowers bloom, and skies are blue and clear.
It's a place that proves for sure the stuff of which you're made,
Where you see Opportunity and follow in her lead.

Oh, if you're not afraid of working
Or of hot sun or rain;
If you'd look where success and failure
Teach us how to play the game;
If you'd find out where friends are truest,
Where team-work is the rule,
There is just one place where we'll direct you —
It's our Summer School.

VOCATIONAL SPECIALS

We, the eight Vocational Specials,
As we lay our tasks aside,
Feel a touch of hidden sadness
Mingled with our joy and pride.

With the faculty and classmates
Cordial thoughts will linger still,
And in years to come we'll cherish
This one year on Normal Hill.

MIDDLE JUNIORS

We are Middle Juniors proud
 We must proclaim it good and loud.
 So that you'll see what we can do
 Our history we'll give to you.
 Oh, how well we can remember
 On the fourteenth of September
 The friendly greeting, gay hullo —
 Or maybe some one's tale of woe.
 Then to increase our Hall of Fame
 The following girls we chose to name —
 For our high and mighty leader
 We wanted to have Miss Mildred Weaver,
 Then for Vice-President Miss Hartman we chose
 And to Miss Rice, our secretary, we rose —
 Then for the one to keep the money
 We elected Miss Carpenter — isn't that funny!
 The day called Hallowe'en was here
 And the poor Juniors — O — O — oh dear!

A sad and horrible tunnel lark
 For them in the spooky, scary dark.
 The time flew quickly, with skirts to plait
 And charts and lessons to mar our fate.
 Till soon arrived the day of days
 When each and all in best arrays
 Ate and danced the evening long
 At the Middle Junior Prom.
 And in athletics we beat them all
 Especially in basketball.
 We have all others quite afraid
 Because we've won each game we've played.
 The play we chose to give this year
 Is certainly fitting — as you hear —
 You see it is "The Charm School" true
 That's something like this, I think, don't you?!!
 And now our year is drawing nigh
 So with good will we say "Good-bye."

IT has been a pleasure to all the Middle Juniors to know that there is a place where they may go and cook to their heart's content, as they can in the X. P. K., trying out new recipes, performing experiments, and making fudge for their own parties and for gifts.

The plans originated last year for the management of the little house have been carried out very successfully this year.

The X. P. K. proved to be an ideal place for a Prom dinner party, when a group of Middle Juniors had a most social time on January 20th.

With the new equipment we hope that the girls will continue to use it even more and more as the years roll by.

JUNIORS

IT was at the meeting for the election of Class Officers early in October that we found who our class-mates really were. Even from the very first, the Junior Class showed a remarkably co-operative spirit, which has continued throughout the year. Lost and frightened as we were in this community, the democratic spirit of the whole school soon set us at our ease. The Acquaintance Party was our first taste of social life here at school. This started the ball rolling. The Faculty Reception, coming soon after, enabled both teachers and pupils to come into a closer relationship. How could we ever forget the Hallowe'en party with its weird thrills and scares? The Harvard-Yale Game and the Christmas Party and Banquet are among our fond memories of the Junior year. Nor must we fail to mention our Prom, that one big social affair of the class. Our Junior year — may we never forget it!

THE first point of our purpose — "To promote school spirit by the co-operation of all classes," and to this the Council has striven, from the first mass meeting, when the Juniors were introduced to some of the customs of the school and shown what constituted Framingham spirit, on through the year with a Song Contest and a "committee for dead week-ends," not forgetting the arousing of spirit during "Book Week."

The second point — "To be a connecting link between the principal and students" was manifested in one instance in the attempt to maintain full attendance at chapel, with the resulting special programs.

And to the third point, of suggesting improvements regarding school life, we have worked in developing the Point System of student activities, which is probably the biggest thing accomplished by the Council of 1923.

THE ATHLETIC ASSOCIATION

EIRENE WHEELER	<i>President</i>
BEATRICE ROSSMEISL	<i>Vice-President</i>
ANNE LETHOLA	<i>Secretary</i>
MARGERY BREWSTER	<i>Treasurer</i>

“YOUNG in years but rich in promise” is our Athletic Association. Although we are the newest organization of the school—this is our first year—yet we have an enrollment of over two hundred enthusiastic charter members.

The aim of the Athletic Association is to co-operate with the Department of Physical Education for the promotion of the physical activity of the students.

The work this year has been largely organizing the association and arranging for games between classes. The first event planned was the Basket Ball Tournament, which proved a very interesting and exciting contest. The Middle Juniors, with their strong first and second teams, won the championship, although they were closely followed by the Juniors and Seniors. The volley-ball and tennis tournaments are the next events planned, and if we can find a diamond big enough for three bases and a home plate, we are going to play baseball.

Although it is now impossible for us to enter into games outside of our own school, we hope that in the future Framingham may have a school team to play other schools and increase her glory along athletic lines. With the growth of the association as years go on, we hope that it may be of real service more and more to the girls.

THE HARVARD AND YALE GAME

TIME: Afternoon of November 25, 1922.

PLACE: Gymnasium of Framingham Normal School.

Two graduates of Framingham are back to see the game. They are outside the gymnasium watching the game through the window.

Harvard: I suppose the girls have been looking forward for weeks to this biggest day of the year.

Yale: And each team has, I suppose, practiced hard. I just know this will be a good game. (*Heard outside "March, march on down the field, Fighting for Eli."*) Oh! here come the Yale girls. Surely we'll win. How can the "true blue" fail!

(*Singing is again heard. "See how the Crimson banners fly, Hark to the sound of marching feet."*)

Harvard: Yes, but now the Harvard girls are coming. Better watch *them*. I think Harvard will win. Look! they are cheering the teams now. Oh! here they come.

Yale: Yes, see how anxious they are to begin, and I know both teams are determined to win, if such a thing is possible. How still it is! I hardly dare breathe. Look! they have started.

Harvard: Yes! Where is the ball? Oh! Harvard has made a basket!

Yale: But Yale has made one now. Such passing and playing! I don't think this gym ever saw such a good game. Oh! the third is over.

Harvard: And Harvard is ahead. Poor old Yale is drowned out by our cheers.

Yale: Now they're playing again. What is the matter with Yale? Harvard is forging way ahead.

Harvard: My, the third is over and Harvard is ahead 12-6. "Al" can't hold the Harvard girls.

Yale: But the game isn't over yet. Now they are back, ready to do or die. At last our girls have begun to really play. Harvard seems lost.

Harvard: Yes, but they are too late. Harvard has won the game 14-12. Look! the Harvard girls are wild. And why shouldn't they be when they won for the first time in three years.

Yale: Yes, but it was *one* good game!

Harvard: And now I suppose the girls are all looking forward to the banquet and all its cheers, songs, and speeches tonight.

Note — The two teams were coached by both members of the faculty in the department of physical education. Both teams were coached jointly until the week before the game, when lots were drawn, Harvard having Miss Sutcliffe and Yale Miss Drake.

FRAMINGHAM MUSICAL CLUBS

ANOTHER year is nearly over and we feel that the Musical Department of Framingham is growing.

In February the Glee Club, the Mandolin Club and the Orchestra decided to consolidate and form one organization known as the "Framingham Musical Club" with Mr. Archibald, leader; Mary Payne, President; Dorothy Ordway, Secretary; Virginia Bowen, Treasurer; Virginia Rice, Business Manager; Mr. Ried, Faculty Manager; Louise Baker, Leader of the Glee Club; Clarice Kittredge, Leader of the Mandolin Club; and Marjorie Howe, Leader of the Orchestra. We feel that this is a big step forward.

During the year we have had a joint concert with M. A. C., dancing afterwards in Horace Mann living-room, we have sung in chapel, and we sang at one of the meetings of the Framingham Women's Club.

The Salem girls were entertained by Framingham this year, and due to the efforts of Mr. Archibald and Mr. Ried our concert was the most successful one that has been given.

We wish to express our appreciation to Mr. Archibald for his untiring efforts to make the club a success.

May the Musical Club continue to succeed, and may we always keep a place in our memories of the pleasant times we have had together.

THE FINE ARTS CLUB

CHARLOTTE MCKENZIE	President
RUTH BELONGA	Secretary
CAROLA CAMPBELL	Treasurer
DOROTHY BLISS	Chairman Program Committee
MARJORIE PERKINS	Chairman Dramatics

THE Fine Arts Club started this year very successfully with an exceptionally large membership enrollment.

The executive committee with the help of our faculty advisers made out a very interesting program.

Our first meeting in September was attended by a large majority of the club. The speaker was Mr. Royal B. Farnum of the Massachusetts Normal Art School, on "Appreciation of Art."

In October, the subject of the meeting was "The Art of Our Forefathers," and the speaker of the evening was Mr. Dilloway.

In December, we were very fortunate to secure Mr. Whitney from Salem Normal School who gave us a lecture on "Indian Lore."

In March the members of the Fine Arts Club enjoyed a "Children's Party."

This year will always be remembered as one of the most successful in the history of the club and we hope that every member has received some benefit from each meeting.

EUNICE MATTHISON	<i>Secretary</i>
ELIZABETH WATERS	<i>Treasurer</i>
DOROTHEA NICOLL	<i>Assistant Secretary</i>

EVEN though we love our school and our school work, there are times when we long for a change from its routine. Our Lend-a-Hand Club affords us this change.

The meetings with Miss Perry are never-to-be-forgotten ones. Here at the Lighthouse on Tuesday afternoons, we sew and knit for hospitals and other charitable organizations.

Our question box meetings broaden our outlook on life and help us see perplexing things more clearly. Outside speakers once a month bring us news from the world and remind us that although each member is "only one," still the world needs all. Miss Perry brings us information of current events, happenings, new books and worthwhile plays.

We have given money to the Red Cross, Student Friendship Fund, Smyrna Relief Work, and other good causes. We feel that our year at the Lighthouse has been well spent.

May each member take from our Lighthouse a little gleam of light that she may keep shining in some dark corner of the world.

GIRLS, you have helped to make 1922-1923 a mighty big year with new purpose and growing spiritual power for the Y. W. C. A.

Framingham Normal School gives us a great deal, but it demands much in return. Here at school we have a chance to give our best. And that is where Y. W. comes in. Mental training is of vast importance but spiritual development must not be forgotten. To grow spiritually — that is our aim; to grow in breadth of mind, in capacity for service, not only “Bigger meetings” but “Bigger lives.”

“The Doings of the Dollar” opened the membership drive. Many Juniors became members and have since become enthusiastic workers.

Will you ever forget the parties, “weenie roasts” and concerts that the Social Committee gave you on your free week to keep you from getting lonesome?

ORGANIZATIONS

And the money from the Social Service boxes placed on the tables in the dining hall at Thanksgiving time. Did you realize that many poor families in Framingham enjoyed delicious Thanksgiving dinners because of them?

The Christmas Bazaar was a wonderful success. The proceeds were divided among the Social, the Conference, and the Social Service Committees.

The Social Service Committee as a result of their efforts made many poor children of Framingham happy with toys and useful gifts. Small gifts, and fruits, and candy were taken to the Home for the Aged.

This year we have had only one Wednesday afternoon meeting each month but always there has been some inspiring speaker to give us help. Besides this meeting there were three regular meetings a week. On Sunday nights we gather quietly together and gain inspiration for the coming week. The Cabinet meeting comes on Monday afternoon, and all the Association business is discussed. On Wednesday evening we have Bible study with many interesting discussions.

All of which makes you feel of some use! That is why Y. W. appeals to most of us. It has been a wonderful year and we hope 1923-1924 will be the biggest year of all for the Y. W. C. A., standing firm for the great international aim — "to deepen the Christ-life among the students."

MAQUA — A Parody

AND the N. E. Student Conference Committee spake unto Framingham Y. W. C. A., saying "Send thou girls, that they may search the land of Maqua, which I give unto them, of every class of the school, shall ye send girls."

And our Y. W. Cabinet by the commandment of the North Eastern Student Conference Committee, sent a delegation.

And they were sent to spy out the land of Maqua, and it was said unto them, "Get you up this way northward, and go up into Maine.

"And see the land, what it is, and the girls and leaders who go there, the courses, the inspiration, the spirit that pervadeth the place. And be of good courage and bring back the fruit of the land."

And they came unto the place which was called Maqua, the Indian name for mirehes, and they saw that it was good. The contact with others reneweth strength, the knowledge gained increaseth wisdom, the inspiration acquired inspires to service.

And they returned from searching the land after ten days. And they came back to Framingham Y. W. C. A., and brought back a good report and showed the fruit of the land.

THE A'KEMPIS CLUB

WITH the opening of school in September the Thomas A'Kempis Club began its sixth successful year. The officers elected for the year were:

REV. DR. O'CONNOR	<i>Chaplain</i>
MAE PAIGE '23	<i>President</i>
ANNE HEFFERNAN '24	<i>Vice-President</i>
GERTRUDE HOWE '23	<i>Secretary and Treasurer</i>
RUTH KAULBECK '24	<i>Federation Delegate</i>

The club this year has been the largest ever, having on its membership roll every Catholic girl in the school.

We began the year by entertaining the Junior members at a tea in Crocker Hall.

We have tried to make our meetings interesting with such speakers as Father Charles Cunningham whom we are always glad to welcome, and Mr. James Fee, Chairman of the Child Guardianship Board of Massachusetts, who told us many interesting things about Massachusetts's neglected and dependent children.

Our club is much indebted to Miss Mary J. Blackie for her kindly interest and enthusiasm.

We of 1923 leave our club to the classes that are to come and wish them every success in the furtherance of its ideals.

DORMITORIES

CROCKER HALL

DOROTHY POOL, *President*

CROCKER HALL ! that dear old, ramblly, homely, lovable place. How much it means to one who has lived there. No other place on Normal Hill comes so nearly spelling "home." We love it from laundry to attic and from kitchen to front porch.

Life in Crocker Hall means hard work, but most of all it means ever so many good times; good times ranging from midnight parties in the attic to just singing in the living-room after dinner.

Who will ever forget that endless night before her first practice class or those cook-shift days when the meat didn't come, and you had to eat tuna fish?

Living in Crocker Hall has meant having the dearest, best "house-mother" in the whole world to take care of us and also sometimes to make us behave.

But Crocker is not just good times; we have learned to live with each other, to love each other, and to appreciate many of the better things in life.

PEIRCE HALL

EVELYN BLISS, *President*

SEPTEMBER and the day of arrival. We soon learned that our matron was Miss McLellan. At our first house meeting we chose Evelyn Bliss our house president and during the year she made us proud of our choice. After a month Miss Day was introduced as our assistant matron, and we grew very fond of her. A victrola was placed in our living-room and has been enjoyed by everyone.

We had a masquerade party which furnished loads of fun. During the evening we found that we had two very suspicious looking strangers in our midst, but when the time for unmasking came, we discovered they were from third floor east.

At Christmas time, each corridor had a party and tree, with distribution of gifts. We gave a party and entertainment to raise money for records for our Vic. The rules as read to us at our house meeting were rarely, if never, broken, it was in the middle of the year before we realized some of our girls did not know candy was not "For Sale" in Horace Mann after ten o'clock. How about it Ruth and Ard? I am sure that every girl in Peirce Hall feels the deep appreciation for the untiring efforts of our matrons in giving us one of our happiest years at F. N. S.

HORACE MANN HALL

MARION LADD, *President*

IN the youngest dormitory at F. N. S. the season of 1922-23 opened with a general hurry and scurry accompanied by noisy words of greeting on the part of the Middle Juniors, while weary, homesick Juniors, bold, carefree Juniors, happy-go-lucky Juniors wandered aimlessly through the corridors which later became as familiar as home to them.

Dormitory life went on quite tranquilly until Hallowe'en when all the Juniors in their gym suits assembled in the living-room for their first real initiation into the school.

We next started the fund which we intend shall be continued and shall in the end bring a victrola to Horace Mann Hall living-room.

Our Christmas party which was held in the living-room was a great success. We had a tree, lots of presents, and a Santa Claus too.

After Christmas we were all very busy people (especially the Middle Juniors) so only corridor and "bunch" parties were enjoyed. We had some fire drills and improved greatly in speed! It took us quite a while to become serious, however. I think we all had too much faith in Horace Mann's fire-proof walls!

Everyone agrees that Horace Mann Hall is a "good place." The Middle Juniors hate to leave it and the Juniors look forward to another happy year there.

VOCATIONAL HOUSE

MARY BETTENCOURT, *President*

THERE isn't a student in Framingham Normal who does not envy the life of a Vocational Junior for a Vocational has the reputation of living in one continuous houseparty from January to June. But one must work for the good things, mostly "eats," if one wants to be a Vocational and a happy one.

We live in the Vocational House, now most sumptuously remodeled, on the side of Normal Hill. Here sixteen of us have that well known wonderful time from seven in the evening, or earlier, until ten at night. If you are the one to make the popovers and omelettes for sixteen hungry girls you will rise at 6.00 a.m., if not 6.30 is a nicer hour. And we work from eight to nine every morning and then make a wild dash to chapel. (You will find us in the seats nearest the chapel doors.)

If one could join our week-end parties one would find more life here than in any dormitory. We get together, Miss Sturtevant and Miss Weeks included, and play "Spoof" until we fairly bring down the house. And then we "top off" with sherbet and cookies.

The pride of our family is our baby sister, Betty May, who came to the house a year ago, when only a few weeks old. Now she is quite a young lady, able to sit up in her high chair and greet you with a gay "Hello" every morning.

IN THE VILLAGE

SMITH HOUSE — 2 MAIN

TO a passer-by it looks rather grey, but to one who knows it from the inside it loses all its grey appearance and brings back fond memories.

Who can ever forget those dignified notices which appeared in one certain room from time to time, or those fudge parties made with our latest invention. What does the one word “Squelched” mean to you? Would you laugh if you should see a white gownned matron stepping out of a pony cart, or an old lady driving a horse?

Those good old days are gone forever, but we will always have the memory of a dear old House-mother and 2 Main.

THE STONE HOUSE

’Twas in the year of nineteen twenty,
We came to Framingham with life aplenty.
The “pebbles” we were promptly “dubbed”
For soon the “Stone House” we all loved.

The eight that lived there strange stories recite,
Of fun and frolic, and good times after “lights”
Still study we did — and at times frolic was rare,
But we all agree, we’re glad we lived there!

MRS. MACALEER’S

IN the fall of 1920, nine homesick girls found a home at Mother Mac’s. Because of her motherly kindness many happy days soon followed. At nine o’clock on cold winter nights we could be found around her kitchen fire, drinking cocoa.

“Happy Memories” — Ye old wheelbarrow — Billy (and mascot) — “500” — Mother Mac’s birthday party — Dancing in the hall at nine — Suitcase escapade — Goodies from home — Broken stair.

With lots of love and very best wishes to Mother Mac from “her girls.”

WILL THE ROGERITES EVER FORGET?

1. Our first night. 2. “Ain’t it a beautiful day?” 3. Climbing the back hill. 4. The night “Lib” picked up her bed and walked. 5. Waiting at the dogcart. 6. The night Louise made cocoa. 7. Do not enter, death lurks here. 8. “Will ye be gettin’ up?” 9. The jig in the parlor. 10. Irene’s trips to the Cape. 11. Kitchen Conveniences in “Dot’s” room. 12. The little girl in the Attic. 13. The night we went house hunting. 14. Chem. charts and black coffee at midnight. 15. Catherine’s visits and performances. 16. Our departure for home.

CLASS HYMN

Like a dove sent down from Heaven,
 Bringing peace to a human heart,
 So bestow, O Lord, thy blessing
 On each one, before we part.

May we seek the good of others,
 Casting out all greed and hate;
 May we still press onward, upward,
 Learn to labor and to wait.

May we all, like little children,
 Trusting where we cannot see,
 Find our work and gladly do it
 With the strength that comes from Thee.

SENIOR LIFE

H. A. SENIOR CLASS HISTORY

JUNIOR YEAR 1921

THE history of the illustrious class of H. A. Seniors 1923, began on a memorable day in September, 1921. According to the law of primacy and vividness, which we have since learned, this is one of the days that we shall always remember. Gracious, but didn't we feel small and insignificant when we first came up Normal Hill; saw the large buildings, which were immense if one happened to come from a small town; became acquainted with our class-mates whom we found to be much in the same state as we were — misery loves company — and then met the upper class-men who, with serene and happy confidence, tried to inspire the same in us, as though even for a moment we could ever forget that we were hundreds of miles from home. and then, oh death, it **RAINED** a whole week!

Sunshine always comes after rain, and it was true this time. Things began to change for the better, because, as we thought at the time, they couldn't have been much worse. After the first clouds of confusion and waves of home-sickness passed with the help of our new friends and lovely weather — the sun must have felt penitent — we really began to see what a perfectly beautiful time we were going to have after all. With a hearty good-will we plunged into our work, struggled cheerfully along as the teachers led us on deeper and deeper into the mysteries of chemistry and physics, sewed and ripped and sewed to the best of our ability, and learned all the other things which make an H. A. student what she is.

With real enjoyment we entered into the good times planned for all. Such fun! Who will ever forget that gruesome trip through the dark and fearful tunnel on Hallowe'en Night! We thought the ghosts of all former graduates had come back for the occasion to assist the Seniors in giving us a "good time." Then our first Harvard-Yale Game. "Which were we?" was the prevailing question of the hour. At last came the day, and the exciting game with the deafening cheers of loyal supporters; then Yale went wild for she had won; then the wonderful banquet and the "end of a perfect day". Too many to relate here were the events and little things that occurred day by day which made our life here happy and full. With the coming of June, we began to make preparations for the summer vacation, at the same time regretting that our Junior year was almost over. Our Junior year, may we always remember it!

THE DIAL

MIDDLE JUNIOR YEAR

WHO could mistake as other than Middle Juniors those cheery, smiling girls, tripping lightly on their after-dinner walk, gayly greeting every one with laughing "Hi-s". Who would ever think they carried weighty problems beneath that appearance of cool, calm, unruffled serenity. Yet, tomorrow you may see them, still cheery and smiling, but trudging along burdened with the "impedimenta" that goes along with their work: Biflex notebooks, text books, and sheafs of notes galore, sewing baskets and mechanical drawing boards, and Kjeldahls and beakers which figure prominently in Chem. experiments and a particular bill with which each girl is presented at the end of her chemistry career. Spasmodic sales of bond paper occur at frequent intervals in the Centre and then the light cuts begin, for note books, shirt-waists, and charts are all called in, one right after the other.

But all is not work or we fear there would be few left to continue in the metamorphosis of the timid and unsuspecting Junior into that highly respected and dignified person, the Senior and eventually the Teacher.

What fun it was to feel that you really belonged and that you could welcome the new Juniors as warmly as any Senior, make her feel at home, and instruct her in the customs and spirit of Framingham.

The big events of the year we will always remember with a thrill; the joy of making new friends at the Acquaintance Party; the keen interest we felt in the Juniors having just as "fine a time" as we remembered at the last Hallowe'en Party; the intense excitement over the Harvard-Yale Game, when friendships, sorely tried for the time being, were saved by good sporting spirit; the glorious Banquet and Alumnae Game afterwards; the fun, work and distinction of giving a play; and last but not least, the thrill of our first Prom, with the horrible fear that "he" can't come, for though men are not exactly scarce, "the man" is only singular and can not be easily substituted.

Every now and then came welcome respite in the form of vacations. Eagerly we packed, cleaned our rooms, and left for a "visit to our parents", as the home town paper announced. Finally after winding up our year's work with the Chem. Exhibition, the collecting of autographs for one's own particular DIAL, the days of hectic packing and the final farewells, with assurances to meet next September, we went home for the summer vacation.

SENIOR YEAR

AT last we are Seniors! Nothing makes us realize it more than our privilege of living in Crocker, which is the goal to be attained by every H. A. girl. How wonderful it was to come back, how happy we were to meet all our old friends and to make new ones, to wait anxiously for the trunks to come so we could unpack, and to actually have a room-mate all our own.

After we all knew about our neighbors' vacations, we had time to look about us and get well started upon our new duties. Soon we were seeing careful and elaborate packing of bags on Wednesday and Thursday nights. What did that mean? Oh, only that our friends in A Division collected all the alarm clocks available, spent a sleepless and anxious night, got everybody up hours too early, carefully dressed, again took inventory of the contents of those bags, scorned the sympathy of B Divisioners (what did they know about it anyway?), gave one last, despairing look at friendly Crocker, and launched forth upon their teaching career.

Meanwhile, B Division experienced similar symptoms of confused and disordered minds, as they were introduced to the mysteries of housekeeping and began their career in Crocker Kitchen. Many were the things we learned as we lived and worked together in Crocker. Then after the day's work was done, how Crocker echoed and re-echoed with the singing and laughter, as we gathered in the living-room for a short while before mail time and study hour arrived.

The Hallowe'en Party came with all its ghosts and we had the Juniors anticipating "an especially unique trip" through the tunnels, which proved to be quite all they expected and "just a little bit more."

The Christmas Dinner when B Division entertained A Division and the Carol Singing afterwards, as we sang, tramping miles and miles through the snow and white moonlight, coming back to Crocker to enjoy hot chocolate and cookies, will always be one of the dearest memories of our Senior Year.

Time flew by all too quickly, we becoming more and more learned, efficient and experienced, until it was time for the Divisions to change. Excitement ran high as teaching assignments were given out and A Division became acquainted with the various shifts. As spring came on, with the appearance of new dresses and hats over which we labored so many hours, we began to realize that our days were numbered and preparations for our last Prom and for Commencement began in earnest.

Those of us who are coming back next year will have another wonderful year to look forward to, while those who plan to take up their chosen work, can look back to Framingham for inspiration. In the hearts of all of us will always dwell the memory of these three happy years spent at F. N. S., where we learned "to live to the truth".

ANNE LETHOLA

THE VOCATIONAL BABY

THE dearest of babies is Betty May. She came to us last year a wee infant nine weeks old. We well remember the day she arrived. Our excitement was great! Through the winter we cared for her, noting with interest each step of her growth and development.

Betty May is a great favorite. Joyfully we welcomed her back when she returned to us last fall. Betty had her first Christmas tree this year, and such a shower of gifts as was heaped upon her!

We can hardly call her a "little baby" any longer, for she walks alone now. But she is still our sweet Vocational Baby.

SENIOR LIFE

HISTORY OF THE VOCATIONAL CLASS

ONE bright September day in 1920 saw fifteen girls arrive at Vocational House; some lonely and tearful, others cheerful and eager to begin on the work they had chosen.

House practice started almost at once. Cooks, housekeepers, and waitresses all worked energetically for the good of the family, as we soon came to call ourselves.

By October 16th we were ready for our first picnic. So on Saturday afternoon with Mr. Workman and Miss Banks to escort us, we went to a woods where we built a jolly fire and enjoyed an admirable picnic lunch (we were expert cooks by that time). Long after dark we sat around the fire, playing games and telling stories. Our first picnic was a great success!

But life at Framingham wasn't all a picnic. One week-end in particular, we were tearful and discouraged for we had just learned about those toboggan slides which Juniors might take if they weren't careful.

Youthful spirits soon recover; and so did ours. By Christmas time we could enjoy a nice party given to us by our Middle Juniors.

Vocational girls will know how to make use of their spare moments. All through the winter we were earning money to buy a victrola. Many were the garments we dyed in the laundry classes. Think of it — girls bravely dyeing for the sake of a victrola!

At last came the fruits of our labors. How well we remember the night of "The First Vocational Ball" when we celebrated the arrival of our hard-earned victrola by dancing to its music.

Would you believe it if I say that among other excitements the Vocational House witnessed a wedding? A mock one, of course, but interesting, nevertheless.

Thus the days of that first year flew by — eventful days: faculty member to dinner and to those nice Thursday luncheons (Thursdays we had cooking class), special dinner parties for the Middle Junior and Senior "Proms"; and the luncheon for the New England Home Economics Association, when we made coffee in the wash boiler, "Chicken à la King" by the bucketful, and butter balls by the hundred — until June, when we said "good-bye" to Framingham; only to return, as it seemed to us, a week or two later to begin our year as Middle Juniors.

The days were busy and happy ones, and a certain excitement prevailed until one day we simply "let loose". I'll tell you how it happened:

THE DIAL

From the classroom window we saw an auto go over the back hill. As soon as the gong sounded we rushed from the room, bounded down the corridor and out the door, leaving Mr. Ried to gaze in astonishment as we sped over the hill. Upstairs we breathlessly crowded around the nursery door. The Vocational Baby had arrived! One by one we tip-toed in to take a peek at the child. What a darling she was!

More duties were now added to our already busy days. We were up nights, we were up mornings early to get the baby's bottle, fearful as we cautiously scuffed to the kitchen at 6.00 A.M., lest we meet Uncle Kim. There were narrow escapes, as the nurses and breakfast cooks can tell you.

When we left Framingham for our Christmas vacation, our life at the Vocational House was over. Those last days spent in moving to Horace Mann and Peirce Halls were confusing and exciting ones. Would we ever get used to living there?

We did, for January found us a scattered but still jolly class. We had to go visiting in those days, and we made many new friends.

No house practice then, but luncheons upon luncheons to keep us busy.

Then came our eagerly awaited "Prom" and the excitement such an event always brings. There was the Stunt Show with a victrola concert as our part.

With warm weather came the chemistry and sewing exhibits, and closing events of our Middle Junior year.

The autumn of 1922 witnessed the uniting of "The Happy Dozen" on third floor Peirce. How nice to be a Senior. No more house practice, no more chemistry charts, but the real thing at last. How exciting it was when we sent our first girls to Fall River for their practice teaching.

And trade work, oh yes. Ask one of our number about her experience in a dressmaker's establishment.

Memorable was the stormy evening we boarded the train for Westboro to attend the wedding of one of our former Vocational teachers. A pretty wedding it was and what a lark to be "out after ten."

The year speeds on and will soon come to a close. Then our days at Framingham Normal will be over. As we leave her for fields of useful service we will bear with us her motto "Live to The Truth."

HISTORY OF THE REGULAR SENIORS AS TOLD BY THE SUN DIAL

THE Dial is very wise. He is much wiser than you or I, or (Sh!) even the Faculty! He has gathered all this wisdom because, for years and years, he has stood on the top of Normal Hill where he has watched all that has gone on. And the Dial has consented to tell the history of the Regular Seniors.

"Know, Ignorant One, that those whom you call Regular Seniors of 1923 began as Juniors in 1921.

"Well do I remember the day I first saw them toiling up Normal Hill. I knew them by their subdued air and furtive glances and because many traveled alone and were plainly timid. I longed to speak a word of cheer to them, but the word was spoken for me by the Middle Juniors and the Seniors of other years.

"That year passed swiftly for many things happened. First of all, they had to become acquainted with each other, and that was accomplished almost at once because each girl told a little about herself and her home town in Miss Gerritson's class, and thus, the ice was broken. Then the Upper Classmen had an 'Acquaintance Party' for the Juniors, too, and they mingled with them, and everyone knew everyone else in an amazingly short time.

"The getting acquainted part being over and the school work well begun, along in October, I overheard the Juniors talking excitedly, in a fashion somewhat like this, 'Well, I guess we'll get out alive. Other classes have, but, Gee! I sort of *am* afraid!' Well did I know the significance of such remarks. The Hallowe'en Party was pending. And sure enough, the Juniors went through the tunnel and came out a sadder and a wiser lot, but initiated at last.

"Thus, time flew by. Many a thrilling report of the Harvard-Yale game came to me; I could even hear the cheers and clapping from the gymnasium as clearly as if I had been there myself. Yale won. After the game came the banquet where, amidst speeches and toasts, and a feast of good things, the victor and the defeated celebrated.

"Then came the Thanksgiving vacation and soon Christmas with its banquet and corridor parties.

"The event of the Junior year which created the most excitement, however, was yet to come. Hitherto, I have watched Middle Juniors, and Senior girls planning and executing a 'man dance' once a year, but this privilege had never been extended to the Juniors. Dr. Chalmers, however, granted the Junior Class of '21 a

SENIOR LIFE

Prom, a real *Man Dance* of their own, and then the fun began. Of course, I had witnessed Proms before, but never a Junior Prom and the shadows never slipped more quickly over the hours on my face than did they on that night of May 13, 1922.

"I have told you mostly of the play times of these Juniors, but you must not think they did not have work to do, also. Work is the secret of happiness and F. N. S. wants its girls to be happy. I heard much talk of place names, of 'communication,' of the parts of an automobile engine, of special topics for practical science, of habits and neurones, and a thousand other things. One day the girls stood very near me and sketched the school grounds; another day they drew all the trees on the campus. Yes, the Regular Juniors certainly worked and enjoyed their work and were happy.

"On June 9, I watched them go down Normal Hill on their way home for the summer vacation. I thought of the joy that first year at F. N. S. had brought into their lives and knew just how happily they would look forward to their next year here with all its work and its play.

"The summer seemed very long and quiet, but at last fall came. And soon the Juniors were become Seniors. Know thou that to become a Senior means to ascend to the height of wisdom and honor. Know thou, also, however, that to become a Senior means work and means, also, growing up. It means practice teaching for a third. It means real thinking. It means, in fact, becoming professional and putting away childish things.

"And yet, strange to say, the Seniors of '23 had just as much fun and play, nay, more, than did the Juniors of '21. The Harvard-Yale game was just as thrilling as before, and this time as Harvard won for the first time in several years, excitement was increased twofold.

"Then, Christmas gave to the Seniors of '23 one of her most beautiful memories. No one of them will ever forget the long miles through the white night and the Christmas songs of peace and good will to men; nor the return to Crocker for cookies and hot cocoa and then over to Peirce, tired, but loving F. N. S. in a new and more beautiful way.

"With June will come the parting, and because I have learned to know and love all of these Seniors of '23, the shadows will fall darkly upon my face when they leave Normal Hill. Yet, I know they will be going out to succeed, to practice all the principles that the school has so firmly inculcated in their hearts, and so, I shall whisper a benediction to them as they go and ask the Sun to guide them upon their way."

The dial has finished his story of the class of '23 for me— and for you.

SENIOR LIFE

CLASS WILL

WE, the class of 1923 of the State Normal School at Framingham, conscious of the fact that we shall soon receive our walking tickets, hereby do revoke and annul all wills and codicils heretofore made, and, with deepest sympathy for our successors who will blindly stumble along this rocky path to wisdom, we do declare this to be our official legacy.

Our real estate, value unknown, we distribute as follows:

To the Juniors the privilege of knowing all and everything.

To the Middle Juniors we leave our ability to waste time, and above all our heartfelt sympathy.

Our bequest to the faculty is a new outlook on life.

We leave the matrons the exclusive privilege of eating with the students and faculty.

To Tony, our thanks, since we know he did his best.

To Mr. Archibald we leave a new stock of slang phrases to use in chorus.

We leave Crocker Hall free from leakage up the back stairs.

We suggest that Miss Day share her speed with Miss Gerritson.

A metabolized edition bound in guinea-pig skin of Prof. Sherman's complete works, we leave to Mr. Foster.

Ten pounds pressure for twenty minutes is our legacy to Miss Gardner.

To Miss Armstrong, a Book of Knowledge to be used by future H. A. Seniors.

We leave Miss Hunt a little sarcasm and some mercy for the Middle Juniors.

A new pair of ice creepers we leave to Miss Greenough.

To Miss Newton, a phonograph which will automatically play "Home Sweet Home" when she takes the thermometer out of your mouth, and save her the trouble.

We give and bequeath to Miss French and Miss Hall, ear-trumpets, the better to hear next year's quiet inmates

The privilege of addressing Miss Coss as "Dearie" we leave to the next Daisy that comes along.

To Miss "Grace Head Matron Dean of Women Carden" we leave our professional dignity, since we know she will make the best use of it.

We would like to suggest that the office of the sewing department be turned into a radio broadcasting station, with Miss Coss as the broadcaster.

We leave no charge of all the extra time Dr. Meier has kept us.

To Mr. Reid a student body who will appreciate him to the full.

We leave Miss Ramsdell her own perfect image of Mrs. Van Loon.

We leave an ever available crack for the victims of Miss Sutcliff's glances.

THE DIAL

Our personal property of inestimable value, we divide as follows:

Louise Baker, we divide equally between Alice Billings and Adeline Missal.

"Briggie's" good disposition we leave to Marion Smedley.

Since position is everything in life we leave ours to Alice Saunders.

To Faith Taylor, we bequeath a trail of "ever faithfuls" that will last till she gets her B. Ed. which will stick, forever.

Mary Payne's excess youth we leave to one we feel sure will use it, the Infant, alias, Hazel Lapham.

Cashman's "Book of Etiquette" we leave to a few of the Juniors.

We leave Kampbell's Kockroach Killer" to future Krocker residents.

To Lucretia Battles we leave the school library, for we think she can make the best use of its contents.

We give and bequeath Irene Russell's height to Ruth Bassett and we wish her all success in stretching.

We leave somebody to kid Ethel Murray along when the Seniors are gone.

To Florence Zink we leave Marian Cashman's "quiet reserve."

Helen Amy Dean's neatness we leave to no one in particular, but we think several could use it to good advantage.

We leave a new supply of giggles to Elsie Erhart.

Grace Crosby's independence we leave to whoever needs it most.

Ruth Parker's ability to rob the cradle of its tender males we leave to Constance Travis.

To Dorothy Ordway we bequeath Lillian Stuart's "bulletin craze."

We leave Issy Alden's gift of gab to whoever feels capable of fulfilling it.

Dorothy Eames' saving qualities we leave to next year's cook shifts.

We leave the privilege of returning a day late from vacations to those students who will enjoy a trip to the State House.

To Crocker attic the loving memory of the fifty odd ghosts that invaded it at midnight of October 31.

To Cider Cide, a new supply of mice to act as companions for the "midnight stroller."

Fond memories of Timothy Tulip we leave to all B division, H. A. Seniors.

We appoint our honored friends, John Dewey and Prof. Sherman, as executors of this, our last will and testament.

Note. "The Ballad of Foods."

A custom of the Chemistry Lab. compels the future F. N. S. student to submit to "The Test of Foods." As the legend runs, the foods are made from materials of our instructors' selection. Five foods are made, each of which is supposed to cast a spell — one of "Carbohydrate," one of "Fat," one of "Protein," one of "Mineral Matter," and one of "Vitamines." If the prospective student possesses power enough to cast off the four temptations and succumbs to the "Test of Vitamines" she is considered worthy to be an F. N. S. graduate.

THE DIAL

A FAMILIAR SCENE

A deepening silence.
A lurking suspicion.
Stolen glances — the dawn of understanding.
Questioning eyes and inward quaking —
Nodding of heads — “I told you so” broadcasted — S. O. S. calls.
Rising emotions, beating of hearts —
Tense, electric silence — and then a quiet voice “Take out a piece of paper.”
Joy gone — hope dead — despair and gloom,
Tolling of bells,
Funeral march softly and sadly.

Two microbes sat on a pantry shelf,
And spoke in accents pained,
As they watched the milk man filter the milk,
“Our relations are getting strained.”

TEACHER AT NORMAL SCHOOL: This is no place for a lady to smoke.
VISITOR: That’s all right. I’m a college girl.

Don’t wash in the bathrooms after 9.45, because Miss McClellan hears the water running all over the dorm. Look out girls; don’t get your feet wet!

BOTH TRUTH AND POETRY

MISS HUNT: “Two so full and bright. Such eyes.”
MR. FOSTER: “A fairy finger touched him, and he slept.”
MR. WORKMAN: “Moulded by God, and tempered with the tears of angels to the perfect shape of man.”
MISS TARBOX: “All things here are out of joint.”
MISS SPARROW: “Even in the rain all day, still chirped the English Sparrow.”
MISS GARDNER: “Looking like a summer moon half dipped in clouds.”

HEARD IN BASKETRY

MR. RIED (*calling roll*): Miss C.?
BRIGHT CLASS: She’s in the other room soaking.
MISS DAY: How can we dispense with CO₂ gas?
BRIGHT JUNIOR (?): Use Yeastcakes.

GRINDS

When the Seniors carry home their dress forms

MISS SWENSON: I am soliciting for the poor. What do you do with your old clothes?

MR. HARDUP: I hang them up carefully and go to bed. Then I put them on again in the morning.

How doth the gentle grapefruit,
Arise in righteous wrath,
And give the helpless eater
A morning shower bath.

"Here's a fine opening for a nice young man," said the grave-digger as he threw out the last shovelful of dirt.

MR. F.: We shall now take a homely example, Miss Ensign, please rise?

MISS NEWTON: It's nothing to worry about — just a little boil on the back of your neck. But you must keep your eye on it.

THE DIAL

WOULDN'T IT BE FUNNY IF:

Helen Barr didn't get up at 6:00 every morning.
Elsie Jessup stayed in her own room.
Margaret Bucknam didn't comb her hair every five minutes.
Helen Calman stayed in on Sunday night.
Martha Kenefiek ever hurried.

MR. A. (*in supplicating voice*): Girls, will you look at me a little bit? Otherwise I may just hold down a chair the way the other teachers do.

MISS HARMON (*to student*): Er-er let me see, a one egg cake? How many eggs does it call for?

STUDENTS' HANDY DICTIONARY

Especially compiled for the use of Students at F. N. S.

CHAPEL: A place in which to enlarge on our philosophy of life.

CHEMISTRY: A complaint caught early in the Junior year. Unless a strong constitution, its evil effects are apt to be lingering.

CHORUS: As ye cut so shall ye visit the office.

CLASSES: Something to be cut when possible and endured when necessary.

CRUSHES: The more violent the attack, the shorter the duration.

FACULTY: A group of assignors.

REPORT CARDS: A document, may be death warrant or joy promoter.

LIVING ROOM: A place for refined recreation.

NOTEBOOKS: Something to be written in just before the close of the semester.

RECREATION: Very little is known about this as yet.

SHOWERS: To be taken after a hard day's work done in forty minutes.

TO THE JUST GRADUATED

Youth of the bounding ambition,
Out in the strenuous mob,
Shall you Accept a Position,
Or will you Hunt for a Job?

"I got five cuts in gym this morning."

"How come? Five cuts in one day?"

"Yeah. I fell off a trapeze."

GRINDS

THE VISITOR

'Twas in a chorus period,
Mr. Archibald was there.
But there was a visitor coming
Of which no one was aware.

Said visitor was long and slim,
His feet we never saw,
He changed his suit just once a year,
He made that rule his law.

Our Mr. Archibald seated girls,
From his exalted station.
Upon the platform high he stood,
And then — such consternation!

The visitor had wriggled in,
And straight across the floor,
Staid Seniors screamed, and screamed,
And then they screamed some more.

The girls jumped up upon the chairs,
There from the visitor saved,
While Mr. Archibald stood on high,
And raved and raved and raved.

After the tumult had died down,
We looked at our teacher brave,
Who'd not been forced, his valiant self
From the threatn'ing snake to save.

But each girl looked at her neighbor
And wisely nodded her head,
"We wouldn't be scared if *we* were there
Away from the snake," she said.

THE DIAL

THE K. K. K. AT F. N. S.

All during the year of '22
And some of '23,
In the room right near old "41"
What queer, quaint sights you'd see.

For the K. K. K. had started
Up here in F. N. S.
And that was the real reason
For all this business.

Bessie McCulloch was the Chief One,
Of the organization here,
She worked unceasingly and long
And tried to persevere.

Gert Downey, Agnes Sweeney,
And Evelyn Nordstrom, three,
Tried hard to make this little club
Successful as ever could be.

With the money obtained from the candy
They bought food for the commuters' lunch,
And saucers, and dishes, spoons and all,
To supply that motley bunch,

Hot soup, chop suey, and cocoa,
The commuters have every day,
Thanks to the pluck and earnestness
Of the girls who started the "K".

Here's hoping that in the days to come
At F. N. S. there'll grow,
Another K. K. K. worth knowing
That'll serve "Good Hot K o Koe!"

HELEN E. CONROY

THE ALUMNAE

TO the Alumna, she who is "lost now in the wide, wide world" is it given to appreciate to a far greater degree than is in the undergraduate's power, the worth of her Alma Mater. She thereby serves as a continual source of encouragement to her younger sister, who sees in her the fruition of many long hours of study, and an example which she may emulate.

Our Alumnae cannot but look back with pride to the fact that, even though lacking the facilities of our modern education, they have achieved their successes. And the student of today, realizing the increased facilities can only be spurred on to an appreciation of them.

So through the years the spirit of loyalty shall be noticed wherever a true Framingham girl may be found. And with an unending devotion every success shall be referred to the School upon the Hill.
